EMPLOYMENT AND SOCIAL SECURITY

► Labor Regulation

Employment Contract

The Ministry of Labor is the entity responsible for developing and implementing the Labor Law. Employment contracts are generally concluded in written form (although this is not obligatory). Written contracts shall be developed in Arabic, but could be translated to a foreign language if the employer or the salaried person is a foreigner and unacquainted with the Arabic language. Contracts should comply with the provisions of the Common Law.

Employers who hire fifteen or more salaried persons shall be required to lay down a scheme regulating working conditions in his establishment. The scheme must be ratified by the Minister of Labor, and the regulations must incorporate the Labor Law guidelines.

► Terms of Employment

Salaries and Wages

The minimum wage in Lebanon is currently set at LBP 700,000 (or the equivalence of USD 464). Information on payroll taxes are included in the Taxation section of this booklet.

Working Hours

» **Working Hours:** The standard working time is eight hours per day or the equivalent of 40 hours per week as set by the Labor Law guidelines. The maximum legal duration of work cannot exceed 48 hours per week. Under special circumstances, employers are allowed to add extra hours to an employee's regular shift, contingent on a permit issued by the Ministry of Labor and overtime hours paid 1.5 times.

» **Breaks:** The employer shall grant his salaried personnel a minimum of an hour rest that shall be interposed in the middle of the day whenever the duration of work exceeds six hours for men and five hours for women. The salaried persons shall be given a weekly

rest that must not be less than 36 consecutive hours. The employer may choose the day of this rest and allocate it among all salaried personnel according to working requirements.

» **Annual Leaves:** Every salaried person employed in an establishment for at least one year shall be entitled to an annual leave of fifteen days with full pay. The employer may choose the leave dates according to work requirements. The salaried person shall not be dismissed or served with a dismissal notice during the mentioned leave.

» **Public Holidays:** There are two compulsory public holidays which must be given, with pay, to employees: Labor Day on May 1st, and Independence Day on November 22nd. In addition, there are 13 other government-recognized holidays during which all public offices and most businesses are closed.

Termination of Employment

The employer and the employee can mutually agree to break a written work contract at any time, in which case there is no payment for damages or entitlements. However, in situations where one party breaks the contract, the injured party is entitled to seek compensation. If the employee was dismissed without any notification period, he should be compensated for the notification he is entitled to, according to the following:

Required minimum notification periods for employers and employees	
Duration of service	Duration of notification period
Less than 3 years	1 month
3-6 years	2 months
6-12 years	3 months
More than 12 years	4 months

The Lebanese Labor Law establishes certain rules for dismissal: The employer may rescind the contract without indemnity or prior notice in the following cases:

- » *Dismissal for business reasons: If the worker or the employee who engaged in the work as a trainee on probation has not satisfied the employer within the first three months of employment;*

- » *Dismissal for Conduct-Related Reasons: If the salaried employee has committed a proven deliberate act or negligence to cause damage to the employer's material interests. In order to use this cause as a plea, the employer is required to inform in writing the Social Affairs Department of such infringement within three days of the verification of the act;*
- » *If the salaried employee has committed three times in the course of a single year, a serious infringement to the By-Law, despite repeated notices served on him in writing;*
- » *If the worker or employee has assumed spurious nationality;*
- » *Dismissal for Personal Reasons: If the salaried employee was absent with no legal excuse or valid reason, for more than fifteen days in a single year or more than seven consecutive days. The salaried employee is required to inform the employer of the reasons of absence within twenty-four hours of his return. The employer shall have to serve written notices to the worker indicating the number of days that shall be counted as absence with no legal excuse;*

The employee is entitled to quit the job before the end of the contract and without prior notice in the following cases:

- » *If the employer or a representative has deceived the employee regarding working conditions at the time of concluding the contract. The employee may not avail himself of this right after the expiry of thirty days from the start of his engagement in work;*
- » *If the employer has not fulfilled his obligations towards the employee;*
- » *If the employer or his/her representative has committed a moral crime against the employee personally or a member of his/her family;*
- » *If the employer or his/her representative has committed assault and battery on the employee.*

In situations where either party breaks the work contract for reasons of misconduct, the party seeking compensation must file a lawsuit no later than one month after the violation. Firing an employee is considered misconduct or abuse of power if the action is based on an unjust or personal reason.

Non-Lebanese Workers Special Terms and Conditions

Every foreigner seeking entry to Lebanon to practice a certain profession or work, with or without pay, is required to obtain a prior approval from the Ministry of Labor (except for artists who shall obtain the approval from the General Directorate of General Security). The foreigner shall apply abroad, through the official Lebanese mission or an authorized representative of the concerned person in Lebanon.

If the foreign applicant is a salary earner, the employer is required to submit to the Ministry of Labor an application wherein he/she declares his/her approval to receive the foreign worker. The application must be supported by documents and instruments, which corroborate the contents of the foreigner’s application, as well as a labor contract certified by a Public Notary in Lebanon, or by one of the Lebanese Diplomatic Corps accredited abroad.

A foreigner, who intends to cumulate the quality of partner/shareholder, should fulfill the following conditions:

- » The share of the applicant in the capital should not be less than LBP 100 million.
- » The applicant must declare the extent of his/her possibilities to employ Lebanese workers (at least 3 Lebanese workers against each foreigner and register them at the social security service within the first 6 months).

Lebanese Social Security System

The National Social Security Fund (NSSF) provides employees with national insurance coverage for sickness, maternity care, family allowance, end-of-service pensions, work-related accidents and diseases. Formal employees or laborers from any sector are eligible to enroll in the program. These provisions are included in the Social Security Law enacted in 1963.

Social Security contributions are calculated as a percentage of monthly salaries, including overtime, bonuses, and fringe benefits. All employers in Lebanon are required to register their employees at the National Social Security Fund within one month from the start of operations, and are required to pay social security contributions on their behalf.

In general, all Lebanese employees and workers, regardless of the nature of their employment, are subject to the Social Security provisions, provided their activities are conducted on Lebanese soil.

Foreigners working in Lebanon (holders of work permits) are entitled to social security benefits, provided their countries of origin offer equal treatment to Lebanese workers (i.e. France, Italy, UK, Syria, and Belgium).

Employers Social Security Contribution:

Social Security Contributions		
Contribution Type	Employee's Contribution	Employer's Contribution
Sickness and maternity	2%	7%
Family allowances	-	6%
End of service allowance	-	8.5%

Exemptions from Contribution

Non-resident foreigners and Lebanese are exempted from Social Security contributions if they are working in Lebanon and following an employment contract concluded abroad with foreign companies, and if their employer produces evidence that they are entitled to social security benefits in their country of residence at least equivalent to those offered in Lebanon.

WORK AND RESIDENCY PERMITS

How do foreign workers apply for permission to work and reside in Lebanon? How long can they live and work in Lebanon? Who requires residency permit?

Work Permits

Any foreigner who obtains a prior approval from the Ministry of Labor, is required to apply for a work permit at the Ministry within a maximum period of ten days as of the date of his/her entry to Lebanon. The Ministry may revoke the prior approval if the foreigner fails to arrive to Lebanon within a maximum period of three months from the date of approval.

The work permit may be granted and renewed for a maximum period of two years from the date of its issuance. If the renewal application has not been filed within at least one month prior to the expiry of its validity, it shall automatically be considered null and void, and the foreigner shall be without a work permit and subject to all measures and sanctions mentioned in the laws and regulations in force.

» Residency Permits

Investors and businessmen possessing temporary residence for six months and who have initiated investment projects in Lebanon may apply before the General Directorate of General Security for a yearly or permanent residence valid for a period of three years and renewable.

CORPORATE TAXATION

A COMPETITIVE TAX SCHEME SENDING POSITIVE SIGNALS TO FOREIGN INVESTORS

Lebanon has one of the most competitive corporate income tax rates regionally and internationally, equal to 15%, making Lebanon's business environment one of the most attractive and competitive for foreign and national companies alike.

Corporate Tax Rates | 2016

Tax payment procedures, are also ranked among the least complex in the MENA region in terms of time, cost and number of payments required per year according to the 2016 Doing Business Report. In fact Lebanon ranked 45th in 2016 in the "Paying Taxes" category, among 189 economies. The Ministry of Finance has played an important role in that matter, improving processes for tax payments, introducing e-declaration and e-payment services and establishing a one-stop-shop for tax payments at Lebanese customs.

TAX FRIENDLY REGIME FOR BUSINESSES – CORPORATE INCOME TAX

Lebanon's tax regime is transparent and globally competitive designed to spur economic growth and provide investors with significant advantages. Companies operating in Lebanon benefit from favorable tax structures, low rates and a wide range of double taxation treaties.

The Lebanese tax structure does not discriminate against foreign investments. Branches of foreign companies are subject to the same business income tax as local companies when profits are realized in Lebanon. There are no taxes payable at the local / regional level. In addition, the tax regime provides several tax exemptions and reductions.

» Tax Relief and Incentives

The Lebanese legislation offers special tax relief for investors to establish and develop their businesses in Lebanon:

- » Exemptions from corporate tax on profits apply to the following: holding companies, offshore companies, education institutes, hospitals, cooperative associations, trade unions, local air and sea transport companies, touristic establishments
- » A 30% reduction on the taxable salary of foreign employees at offshore companies when working in Lebanon. Hence, employers are subject to reduced social security contributions and payroll taxes.
- » Wages of foreign employees in the Union of Arab Capital and Financial Markets are exempt from payroll taxes
- » Foreigners are completely exempted from paying social security contributions if they are working in Lebanon pursuant to a contract concluded abroad with foreign enterprises and if they are covered by a similar benefit at home

Several incentives and fiscal exemptions are granted for eligible investments through IDAL's Investment Law No.360. Please check the section on Financing Your Business.

APPENDIX: DEFINITION OF BUSINESS STRUCTURES

APPENDIX: DEFINITION OF BUSINESS STRUCTURES

► Joint Stock Company S.A.L

IN BRIEF

Minimum initial capital is LBP 30,000,000
Minimum number of shareholders is 3
No restrictions on foreign participation except for certain restricted sectors
Majority of board members must be Lebanese nationals

A Lebanese Joint Stock Company is constituted amongst shareholders who are only liable to the extent of their contribution and who subscribe to negotiable instruments referred to as 'shares'. Lebanese joint stock companies must necessarily have the Lebanese nationality, and must by all means establish their headquarters in Lebanon.

The minimum number of shareholders of a JSC is three, and the minimum initial capital is LBP 30,000,000 (approximately USD 20,000), which can be in-cash and/or in-kind contributions. The in-kind contributions must be fully delivered at the time of incorporation, but full payment of the cash capital is not required at the time of establishment. In fact, the Law allows that only one fourth of the cash capital be paid upon the company's constitution.

The company may be open to the public for subscription and may issue financial negotiable instruments or bonds. The shareholders initially meet in a "general assembly" and elect a board of directors. The number of board members must be between three and twelve. All board members must own a minimum number of shares in the company (determined in the company's by-laws) and the majority must hold the Lebanese nationality.

The board elects a Chairman who represents the company and carries out the board's decisions. By virtue of the Law, the Chairman is also necessarily the company's General Manager.

There are no restrictions on foreign participation in joint stock companies except for certain restricted sectors (mainly the public sector, media, commercial representation, real estate and other specially regulated industries).

At least one auditor must be appointed by the company for a one-year term, noting that an additional auditor is appointed by the judge presiding over the Trade Registry within two months from the company's incorporation. The company must necessarily appoint a lawyer with yearly retainer fees. Finally, the company's name must always be followed by the abbreviation "S.A.L".

» Holding Company

IN BRIEF

- Same characteristics as for Joint Stock Companies
- Board of Directors can be entirely constituted of Non-Lebanese
- Exempted from taxes on profits and distribution of dividends
- Minimum capital can be denominated in foreign currency.

A Holding Company is a special type of Joint Stock Company that has a limited object and benefits from special tax treatment and other provisions. The object of the holding company is strictly limited to the following:

1. Buying and subscribing to shares in Lebanese or foreign joint stock or limited liability companies,
2. Managing the said companies,
3. Lending money to companies in which it holds a minimum of 20% shares and or guaranteeing such companies towards third parties. The holding company may for such purpose borrow from banks and issue bonds, provided that the total value of issued bonds does not exceed five times its capital and reserves,
4. Holding and leasing patents, concessions and trademarks,
5. Acquiring moveable or real estate assets that are necessary for the holding's operations.

The holding company has the same characteristics as described under joint stock companies, with the following exceptions:

- » The holding company is exempted from the obligation of having Lebanese citizens or corporations on its board of directors, noting that the non-Lebanese Chairman of a holding company is exempted from work permit requirements.
- » The minimum capital requirement is the same as for joint stock companies but can be denominated in foreign currency. The company's name must always be followed by the expression 'Holding S.A.L'.
- » The Holding enjoys tax advantages: it is exempted from income tax on its profits and on the distribution of dividends. However, the holding company remains subject to other tax provisions including notably a flat tax (that varies depending on the company's capital and reserves) not exceeding LBP 5,000,000 annually.
- » Similar to joint stock companies, the Holding must appoint an auditor as well as a lawyer with yearly retainer fees. The holding company is exempted from the obligation of appointing an additional auditor.

» Offshore Company

IN BRIEF

- Special case of Joint Stock Company
- Operates in the Lebanese free zones or abroad, but is constituted in Lebanon
- Does not require Lebanese Nationals as board members and could be fully owned by non-Lebanese
- Minimum capital can be denominated in foreign currency.

An Offshore Company is a special type of Joint Stock Company (enacted by Decree Law No 46 of June 24, 1983, amended by Law No. 19 of September 5, 2008) designed to be constituted in Lebanon but which operates only in the Lebanese free zone and/or outside the Lebanese territory. The object of the Offshore Company is strictly limited to the following:

1. To negotiate and sign contracts & agreements regarding operations & deals executed outside the Lebanese territory reverting to assets owned abroad or within the free customs area.
2. To manage, from Lebanon, companies and corporations activities which are exercised exclusively outside Lebanon; to export professional, administrative and regular services, as well as computer services and programs of all kinds to corporations based outside Lebanon, upon these corporations' request.
3. To conclude exterior tripartite or multipartite trading transactions outside Lebanon. For that purpose, offshore companies may hold negotiations, sign contracts, ship wares, re-issue invoices for business and transactions outside Lebanon, or from/and to free customs areas in Lebanon; this will include the use of facilities available in the free customs areas in Lebanon, to store imported goods so as to re-export them.
4. To undertake sea transportation business activities.
5. To own actions, shares, bonds and partnerships in foreign non-resident corporations and companies; to lend to non-resident corporations in which offshore companies own more than 20 % of their capital.

Finally, offshore companies are not authorized to render services to corporations based in Lebanon.

The Offshore Company has the same characteristics as joint stock companies, with the following exceptions:

- » **The Board can be entirely established by non-Lebanese.** The non-Lebanese Chairman of the company along with all foreign employees, are exempted from work permit requirements, provided that the 'balance sheet total' of the company exceeds LBP 1 billion. Decree 7861, dated March 24, 2012 defines what is meant by the term 'balance sheet total' as total assets. Thus, the exemption stated above is applicable in the year following the fiscal year in which the threshold of LBP 1 billion has been attained.
- » The minimum capital requirement is the same as for joint stock companies but it can be denominated in foreign currency. The Offshore enjoys tax advantages and is **subject to a flat yearly tax of LBP 1 million.**

Does not have a governing Board
May not issue 'negotiable instruments'

A Limited Liability Company is governed by Decree-Law No. 35 of August 5, 1967 and is commonly referred to in Lebanon as S.A.R.L (this is the French equivalent of L.L.C). An S.A.R.L is founded by at least three partners with a maximum of 20. As indicated by its name, the company's partners have a limited liability, limited to the amount of their contribution to the company.

Moreover, partners are not considered to be merchants and hence are not subject to the provisions applicable to merchants including the provisions of the Lebanese Code of Commerce.

The object of an S.A.R.L may not be related to insurance, economics, supplies, organized air freight, banking or finance.

An S.A.R.L is required to have a minimum capital of five million Lebanese Pounds (approximately USD 3,333), noting that contributions may be in-kind or in-cash. Shares of limited liability companies (referred to as "parts"), are not freely tradable.

Therefore, whilst transfer of parts amongst partners is in principle free, however, transfer of parts to non-partners requires the prior approval of partners representing three quarters of the company's share capital. An S.A.R.L may not issue 'negotiable instruments' such as shares or bonds and may not call for public subscription to its share capital.

The company's partners convene in general assemblies. Unlike JSCs, the S.A.R.L doesn't have a board of director, its management is entrusted to one or more 'managers' who may or may not be partners. The company's denomination must always be followed by the abbreviation 'S.A.R.L', clearly indicating the limitation of the partners' liability as well as the legal status of the company.

In general, there are no restrictions on foreign participation in limited liability companies except for certain regulated sectors that have specific requirements on the percentage of shareholding attributed to Lebanese nationals. The company must necessarily appoint a lawyer with yearly retainer fees.

▶ Lebanese Branch or Representative Office of a Foreign Company

IN BRIEF

The branch must have the same object as the mother company, and can engage in regular trade activities

The Representative Office is restricted and limited to the promotion of the head office's services and products

For a Foreign Commercial Company to operate in Lebanon it must register as a 'Branch' or 'Representative Office'.

According to the provisions of the Law, a Lebanese Branch of a foreign company must have the same object as the mother company. Moreover, it is authorized to engage in regular trade activities or to own local business entities. The branch must first be registered with the Ministry of Economy and Trade if the head office is a joint stock company, a limited liability company, or a partnership by shares. A second registration is required at the Trade Registry. The parent company must appoint at least one director to manage and run the Lebanese branch, as well as a lawyer on a yearly retainer basis.

A foreign company may establish a Representative Office in Lebanon. Such an entity generally has the same characteristics and requirements as a Lebanese branch except that the representative office's activity is restricted and limited to the promotion of the head office's services and products. Hence, a representative office may not engage in trade activities of any kind in Lebanon.
